

County Administrator's Update

ISLE CARES

December 23, 2019

Dear Citizens,

As we look forward to the Holiday season and the end of 2019, it is a time to celebrate and reflect on the past year. Many great things are happening in Isle of Wight County including new businesses, a strong economy, and another stable county budget. The new year will bring a new election, the census and important decisions on large capital projects such as the replacement/renovation of two schools (Hardy and Westside).

To all our employees and citizens, I hope you are able to spend time with family and friends during the holidays and I look forward to working with each of you during 2020.

Randy Keaton
County Administrator
